

Report from County Councillor Paul Hodgkinson

1. Community First Responders: as I've mentioned previously, I am supporting a major recruitment drive for this crucial role. SW Ambulance Service is looking for responders in the North Cotswolds and anyone can apply via their website. The recruitment drive is open until early May.
2. Coach parking: I forwarded to you a communication from Highways last week on this. The GCC Highways Officer has said that he will communicate formally with everyone ahead of the experimental TRO being instigated.
3. The Steeps/Bourton Hill: I had asked Highways to carry out urgent repairs to this road. They have carried out a CCTV survey paid for out of my Highways Local fund as there is a blockage under the road causing the water problems there (which is in turn causing the very poor surface). Some repairs have been carried out but the job looks far from complete so I have chased the GCC Highways Officer for an update.
